

VISHRUT TRAPASIYA

FLUTTER & FLUTTERFLOW DEVELOPER

(+91) 73596 57808 | vishruttrapasiya321@gmail.com | Surat, Gujarat | linkedin.com/in/vishruttrapasiya

PROFESSIONAL SUMMARY

Flutter Developer with 4+ years of experience building high-quality Android and iOS applications using Flutter and Dart. Skilled in developing scalable, user-friendly mobile apps with Firebase, REST APIs, state management and third-party integrations. Experienced in delivering production-ready applications across industries, collaborating with cross-functional teams, and optimizing app performance. Passionate about writing clean, maintainable code and delivering reliable mobile solutions that meet business goals.

KEY SKILLS

Flutter | Dart | FlutterFlow | Firebase | REST APIs | GetX | BLoC | Provider | Riverpod | Git | GitHub | Android | iOS | SQLite | Hive | Figma
| Google Maps | Push Notifications | Play Store | App Store

TECHNICAL SKILLS

Languages: Dart
Frameworks: Flutter | FlutterFlow
Backend: Firebase | REST APIs
State Management: GetX | BLoC | Provider | Riverpod
Database: SQLite | Hive
Version Control: Git | GitHub
Tools: Android Studio | VS Code | Figma
Platforms: Android | iOS
Services: Google Maps | Push Notifications (FCM) | Play Store | App Store

EDUCATION & CERTIFICATIONS

BACHELOR OF COMPUTER APPLICATIONS (BCA) | MANSAROVAR GLOBAL UNIVERSITY (MGU)
MADHYA PRADESH, IND

2020 – 2023

WORK EXPERIENCE

Flutter Developer | Infinity Brains | Surat, Gujarat

Dec 2022 – Feb 2023

- Developed and maintained cross-platform mobile applications using Flutter and Dart for Android and iOS.
- Integrated REST APIs and Firebase services, including Authentication and Cloud Firestore.
- Implemented responsive UI designs from Figma while ensuring a smooth user experience across devices.
- Collaborated with designers and backend developers to deliver features on time and resolve technical issues.
- Improved application performance by fixing bugs, optimizing code, and enhancing app stability.

Flutter & FlutterFlow Developer (Freelance) | Remote

Feb 2023 – Present

- Delivering custom Flutter and FlutterFlow applications for clients across multiple industries.
- Developing Android and iOS apps with clean architecture, Firebase integration, and REST APIs.
- Publishing and maintaining applications on the Google Play Store and Apple App Store.
- Working directly with clients to gather requirements, implement features, and provide ongoing support.

PROJECTS

Premier Report | Property Inspection & Snag Reporting

Technologies: Flutter, Dart, REST APIs, Google Maps, Camera

Developed a mobile application for property inspection and snag reporting, enabling inspectors to manage assigned inspections, record defects, capture photos, and generate digital inspection reports.

Key Features:

- Inspection assignment and progress tracking.
- Defect reporting with photo capture and attachments.
- Structured digital snag reports with real-time data synchronization.
- REST API integration for seamless backend communication.
- Optimized UI and workflow for fast, reliable field operations on Android and iOS.

Botch | Location-Based Social Networking App

Technologies: FlutterFlow, Firebase, Cloud Firestore, User Authentication, Push Notifications, Google Maps

Developed a location-based social networking application that enables users to create trip posts, share travel updates, and connect with friends nearby.

Key Features:

- User authentication and profile management using Firebase.
- Real-time trip posting and location-based social interactions.
- Cloud Firestore integration for efficient data synchronization.
- Push notifications to keep users updated on friend activities.
- Optimized the application for a smooth, responsive experience across iOS devices.

Flexie Shifts | Workforce Management Application

Technologies: Flutter, Dart, Firebase, REST APIs, GetX

Developed a workforce management application that streamlines employee shift scheduling, attendance tracking, and workforce operations for businesses.

Key Features:

- Employee shift scheduling and attendance management.
- Firebase Authentication and Cloud Firestore integration.
- Role-based access for employees and administrators.
- Real-time data synchronization using REST APIs.
- Published on the Google Play Store with optimized performance.

Padlo AI | AI Padel Coaching Application

Technologies: FlutterFlow, Dart, Firebase, AI APIs, REST APIs

Built an AI-powered mobile application that provides personalized padel coaching, training plans, and performance insights.

Key Features:

- AI-generated coaching recommendations.
- Secure user authentication and cloud data storage.
- Interactive dashboards and progress tracking.
- Responsive UI for Android and iOS.
- Optimized for fast performance and smooth user experience.

Luna | Pet Care & Appointment Management

Technologies: FlutterFlow, Dart, Firebase, REST APIs, FCM, AI APIs

Developed a pet care application for managing pet profiles, appointments, and notifications in a single platform.

Key Features:

- Pet profile and appointment management.
- Firebase Authentication and Firestore integration.
- Push notifications using Firebase Cloud Messaging.
- REST API integration for real-time updates.
- Responsive UI with reusable components and clean architecture.

LearnBud AI | AI Learning Platform

Technologies: FlutterFlow, Dart, Firebase, REST APIs, AI APIs

Developed an AI-powered learning platform that helps users study efficiently with personalized AI assistance and interactive learning tools

Key Features:

- AI-powered learning assistance.
- Firebase Authentication and cloud data management.
- Dynamic content generation using REST APIs.
- Responsive UI optimized for Android and iOS.
- Reusable architecture for scalability and maintainability.
